

## Chrisenda's Story

**Chrisenda Jones, Retired, U.S. Department of Defense**

My cause is mental illness. So many are affected with mental illnesses, and it's not looked at as the serious illness it is because you can't see it like many illnesses which are physical. Funding through the CFC provides designated funds, which allow organizations to budget for their needs. The CFC is important because of the things it does to help those less fortunate.

*"My cause is mental illness; so many are affected, and it's not looked at as the serious illness it is because you can't see it like many illnesses which are physical."*
