

Gerald's Story

Gerald A. Wilson, U.S. Department of Health and Human Services

My cause is homelessness. I am one of 10 siblings, and growing up our family experienced homelessness. I vividly remember sleeping in the car and living in shelters. As I travel around the country, I still see how homelessness affects every community, race, and nationality. It knows no bounds. I believe no one should experience the adverse effects of being homeless. Funding through the CFC to organizations who serve the homeless population in our region will provide resources dedicated to meeting their holistic needs. Contributions will provide food, clothing, shelter, and medical/mental health attention to everyone who needs it.

“My cause is homelessness. I experienced being homeless with my 10 siblings. I vividly remember sleeping in the car and living in shelters. Funding through the CFC provides food, clothing, shelter, and medical/mental health attention.”
